Amendment to the declaration of James McCleskey
Georgia, Hall County

Personally appeared before me a Justice of the Peace in & for said County James McCleskey who being duly Sworn Deposeth and saith that by reason of old age and the Consequent loss of memory he cannot Swear positively as to the precise length of his Service but according to the best of his recollection he Served not less than the periods mentioned below and in the following grades: In the year 1776 I volunteered into Service under Captain Armstrong as a private militia man (Captain Armstrong being called out to Suppress the Tories) and was attached to Colonel Davidson's [William Lee Davidson's] Regiment under the command of General Rutherford and marched to a place called the Snow Camps (a distance of about 200 miles) on Reedy River in the State of South Carolina at this place We joined the troops from Georgia and South Carolina I remained at this place about two months and was discharged I returned to the State of Virginia.

In the year 1777 the Indians on the frontiers having become very troublesome Colonel Campbell called on Captain Stephens to raise a Volunteer Company I volunteered into said company as a private Militia man and marched to a place called the Royal Oak it being the Residence of Colonel Campbell at which place we held our head quarters I was attached to Colonel Campbell's Regiment we marched from this place to Black's Fort a distance of 50 miles and from the Fort Started to March to the Long Island on Holston River but met a party of the Indians before we reached the Island and had a skirmish with them in which we killed eighteen of them and had two of our men wounded & one killed. We then returned to the Fort and a few days after a party of Indians were discovered in the neighborhood we pursued and overtook some of them and Killed two of them Shortly after this We returned to the Loyal Oak I having served two months.

In a Short time the militia were again called for to March to the Cherokee nation Captain Bowen raised a volunteer Company into which I volunteered as a private militia man and was attached to Colonel Christy's [sic, William Christian's] A Regiment we marched to the Long Island of Holston River and rendezvoused Colonels Campbell & Shelby were with the Army after remaining at this place some days We were marched to the Valley Towns in the Cherokee nation We were marched to this place to join the South Carolina troops but the Indians having learned that they were coming marched from their Towns to a Gap of the mountains and attempted to intercept their passage but were defeated. We burned three of their Towns and then

returned to the Long Island at which I was dismissed with the remainder of the troops & returned home having Served two months.

I then removed into Abbeville District State of South Carolina where I was employed the two first years as a Waggoner for which Service I claim nothing but merely State it to show where I was.

Some time in the year 1780, the British besieged Charleston General Williamson gave orders to Colonel Pickens to turn out and March With two divisions of the militia to its relief the Colonel finding the militia backward in turning Out called on Captain James McCall to raise a Company of Volunteers into which company I volunteered as a private Soldier We were marched to and rendezvoused at a place called White All [sic **“White Hall” – northeast of present day Bradley SC and west of Ninety Six SC - Andrew Williamson, originally commanded the Ninety Six Militia, later sided with the British and relocated to Charleston, SC.**] the Residence of General Williamson about two hundred miles from Charleston and from there Started on to Charleston but were informed before we got there that the City had been Surrendered to the enemy. We then returned to White Hall this was a place where the Public Stores and arms were Kept We remained at this place to Guard the Stores until the enemy had taken possession of the surrounding Settlements General Williamson was called on to Capitulate which he did and the Militia all except Captain McCall's Company of Volunteers took protection. I had then Served a tour of three months. Captain McCall marched with his company into the frontier Settlements and met with General Clark [sic, Elijah Clarke] With one hundred men at the mouth of **Generous Sea Creek [?In an online history of Ezekiel EVANS based on a letter written April 1850, the author describe a river in the Indian land as “on the banks of Genester River”]** in the Indians Territory or land We remained in this neighborhood defending ourselves against the British and Tories until General Morgan came to our relief having remained in this Situation and not under any regular or Competent Authority five months to the best of my recollection.

About the first of February 1781 General Morgan Called on the militia to turn out and join him Captain McCall with his company joined him at Packolet [sic, Pacolet] River in which company I still remained as a private militiaman General Morgan learning that Corn Wallis [sic, Cornwallis] Was coming on retreated up the River until they reached the Cowpens at which place General Morgan made a Stand and Was attacked by Colonel Tarlton [sic, Banastre Tarleton] and defeated him after the engagement at the Cowpens We were placed under the Command of General Pickens and took charge of the prisoners and guarded them to the Island Ford on the Catawba River the prisoners being placed under the Virginia troops I Was here dismissed having Served three months and returned back to South Carolina and remained under arms but not under any Competent Authority Some time. Captain McCall died about this time with the Smallpox. [see pension of McConnell S2773 for more info on McCall's death]

About the first of July I think General Green [sic, Nathanael Greene] came to Ninety Six and called out all the Militia. I turned out and was attached to a Rifle Company under the command of Captain Robert Caruthers [sic] and attached to Colonel Pickens Regiment as a private Soldier Remained at this place six weeks endeavoring to drive the enemy who had three Forts at this place the Town Fort, **Holmes Fort [see McConnell S2773- Note 21]** and the Big Red Out [could be Cut] Fort but we could not Succeed the Enemy being reinforced by Lord Rodden [sic, Lord Rawdon] We had to retreat.

General Pickens then ordered Captain Caruthers to raise a horse company for Six months I volunteered into this company as a private Soldier and marched to the frontiers and built a Station and remained there Skirmishing with the Indians and Tories in one of which We Killed five Tories and took three prisoners I remained at this place until the end of my term of Service Six months and was discharged.

The foregoing tours as Set is all the Service that I claim as being under Competent Authority and for Such Service I claim a Pension.

Sworn to and subscribed before me this 26th of September 1833.

Where the meaning is not compromised by adhering to the spelling, punctuation or grammar, no change has been made. Corrections or additional notes have been inserted within brackets or footnotes. Blanks appearing in the transcripts reflect blanks in the original. A bracketed question mark indicates that the word or words preceding it represent(s) a guess by me. The word 'illegible' or 'indcipherable' or 'undeciphered' appearing in brackets indicates that at the time I made the transcription, I was unable to decipher the word or phrase in question. Only materials pertinent to the military service of the veteran and to contemporary events have been transcribed. Affidavits that provide additional information on these events are included and genealogical information is abstracted, while standard, 'boilerplate' affidavits and attestations related solely to the application, and later nineteenth and twentieth century research requests for information have been omitted. I use speech recognition software to make all my transcriptions. Such software misinterprets my southern accent with unfortunate regularity and my poor proofreading skills fail to catch all misinterpretations. Also, dates or numbers which the software treats as numerals rather than words are not corrected: for example, the software transcribes "the eighth of June one thousand eighty six" as "the 8th of June 1786."
