State of New York Chenango County Town of Bainbridge

Joshua Mersereau<sup>1</sup> of the town County and State aforesaid being duly sworn on his oath says that according to the best of his information and belief he was 71 years old last June & that in the year 1782 some time about the month of June or July Capt. Abijah Hunt came to Philadelphia and to the best of the recollection of this deponent came in company of this deponent's father who introduced him to Commodore Gillard [sic, Alexander Gillon] and recommended him, the said Hunt as a suitable person to fill the office of Midshipman on board the Frigate *South Carolina* commanded by John Joyner, and that Commodore Gillon engaged the said Hunt in that birth or office. This deponent having previously been engaged as Carpenter of said ship and having frequent occasion to call on the Commodore by his special desire, to make reports to him, gave him this deponent an opportunity of free conversation particularly from his kind attention to this deponent, that Capt. Hunt was on board said ship in the River and that on or about the 20th of December they sailed out to sea, and was soon attacked by 3 British ships of war and taken off the Cape of Delaware -- And further that on the 2nd day after we were captured the weather being hazy and one convoy not to be seen a plan was projected by & among the prisoners to raise en masse & retake the ship & fight our way into some port, and that this deponent personally put the question to the said Hunt whether he was capable of navigating the ship if the said prisoners succeeded in retaking her to which he replied he was -- the prisoners already had an arms chest at their command and this deponent requested said Hunt to stand by & take charge of said arms chest and hand out the arms when the word was given to raise, for which purpose this deponent was to go on deck & see if all was clear and give the signal & attack the officer near the companion [way] which would make the way clear for the prisoners to rush on the quarter deck where the contest was to take place, that this deponent was on the quarter deck & supposed the proper time had arrived when another officer came running towards the deponent from the cabin with a pistol in each hand, & threatening to blow him through, ordered him below. He instantly shut the companion leaf [?]. They had by some means discovered the intended attack, the prisoners were instantly ordered into the ward room & to be quiet. The ship soon arrived at New York the prisoners remained several days on board the said ship in that situation this deponent saw several of his friends by whom he gave information to his father and General Washington of his & the said Hunt's situation who with the rest of the prisoners were transferred on board of the *Scorpion* prison ship Here their sufferings were severe being plundered of their blankets and clothing and without fire and on short allowance of provisions of the poorest quality -- But agreeably to the information that this deponent had given to his friends they procured from the British commissary a parole of honor for this deponent & the said Hunt. They then returned to Jersey and continued on parole until the definitive treaty was approved of which released them from their obligations. And further this deponent says that in the year 1782 the said Hunt, in frequent familiar conversations, then informed this deponent of having been taken prisoner & taken to Ireland & transferred to England as set forth in the declaration of said Hunt and this deponent verily believed at that time & now believes the same

to be true. And this deponent further saith that in the year 1800 this deponent being in attendance on the Legislature at Albany as a member thereof and the said Hunt then residing in that City in mercantile business they renewed the former intimacy and from that time to this it has continued by doing business & otherwise -- And this deponent says that from these facts & such intimate acquaintance & from the general character of the said Hunt -- he this deponent has the strongest reasons to believe that he the said Hunt is a man of truth and veracity and that the service stated by him in his declaration both as a soldier and a sailor in the revolution are entitled to full credit, he the said Hunt having frequently repeated the same to this deponent in long gone by & sociable compensation -- And further this deponent saith he verily believes the said Hunt to be rising of 70 years of age, having been acquainted with him more than 50 years. And further this deponent saith not.
