[Methodology: Spelling, punctuation and/or grammar have been corrected in some instances for ease of reading and to facilitate searches of the database. Where the meaning is not compromised by adhering to the spelling, punctuation or grammar, no change has been made. Corrections or additional notes have been inserted within brackets or footnotes. Blanks appearing in the transcripts reflect blanks in the original. A bracketed question mark indicates that the word or words preceding it represent(s) a guess by me. The word 'illegible' or 'indecipherable' appearing in brackets indicates that at the time I made the transcription, I was unable to decipher the word or phrase in question. Only materials pertinent to the military service of the veteran and to contemporary events have been transcribed. Affidavits that provide additional information on these events are included and genealogical information is abstracted, while standard, 'boilerplate' affidavits and attestations related solely to the application, and later nineteenth and twentieth century research requests for information have been omitted. I use speech recognition software to make all my transcriptions. Such software misinterprets my southern accent with unfortunate regularity and my poor proofreading skills fail to catch all misinterpretations. Also, dates or numbers which the software treats as numerals rather than words are not corrected: for example, the software transcribes "the eighth of June one thousand eighty six" as "the 8th of June 1786." Please call material errors or omissions to my attention.]

[Note: The following, though no addressing specific military service as such was deemed by me to be worthy of inclusion in this database in order to establish that a magazine was constructed in Fredericksburg during the revolutionary war.]

[From <u>Digital Library of Virginia</u>] Fredericksburg City Legislative Petitions

To the Honorable the Speaker & Gentleman of the House of Delegates The Petition of Richard Brooke & James Tutt humbly Sheweth that Colonel Fielding Lewis being empowered to contract for the building of a Magazine on the Gun factory lot of Fredericksburg, engaged your Petitioners to build a house for that purpose agreeable to a plan then approved of, and herewith submitted, that your Petitioner's having been frequently employed by Colonel Lewis in work of similar kind, and having as often experienced his punctuality and integrity, thought even the usual precaution of a written agreement unnecessary, but conceived themselves sufficiently secure in a very summary oral one in which the only material stipulation was that the house should be built of Stone at the price generally given for brick work, that a short time before the building was finished Colonel Lewis (being indisposed) removed to a distant part of the country and not finding the relief which he expected from a change of air was unable to return to his former place of residence & after a doubtful illness died, that this incident prevented your Petitioners from obtaining such vouchers as would have placed their claim in the most eligible point of view and obliges them now to look up to you for relief. An examination of their account with a reference to Colonel Lewis's books it is hoped will sufficiently evince the House of the balance of their favor and establish the justice of their claim. They therefore hope your Honorable House will take their case into consideration and grant them such compensation for their labor as unto you shall seem just, and they as in duty bound will ever pray.

[Another file]

To the Honorable the Speaker and Gentlemen of the House of Delegates the Petition of Richard Brooke and James Tutt Sheweth

That your Petitioners in the year A.D. 1776 were employed Fielding Lewis one of the commissioners for establishing a Manufactory of Arms at Fredericksburg, to Build a Magazine on the lot purchased for that purpose adjacent to the Town. That your Petitioners not doubting that Colonel Lewis was properly authorized to contract for the Public and having frequently experienced his integrity and punctuality when employed by him in his private capacity on this occasion thought even the usual precaution of a written Agreement unnecessary but relied on a very concise parol one in this it was only Stipulated on their part that the House should be erected of Stone agreeably to the plan proposed at the price which was then given for brick work and on the part of Colonel Lewis that all the planks, Shingles, Nails, Locks, Hinges, oil, paint and Glass Should be furnished by the Public. That your Petitioners in consequence of this Agreement proceeded to perform not only what was stipulated on their part but after having Sustained much injury by the delay occasioned from frequent disappointments in the Articles to have been furnished by the Public, they in order to prevent further loss and forward the Building then much wanted, were obliged to advance considerable sums to purchase the materials that were occasionally necessary as will appear by the Account Annexed² and your Petitioners further show that before the building was completed, Colonel Lewis' ill State of Health induced him to move to a distant part of the Country, where after lingering a Short time he died that by this incident they had been prevented from affecting a settlement of their claim and obtaining that compensation for their Services to which they think themselves justly entitled and are now compelled to petition your Honorable House for Relief. That your Petitioner's principally depending on their own Industry and exertions for the support of themselves and Families have already Suffered great inconveniency from the detention of a Sum in attempting to Acquire which so much of their labor has been devoted and are now only relievable by the intervention of your House to whose justice they appeal and they as in duty bound will ever pray.
