[Methodology: Spelling, punctuation and/or grammar have been corrected in some instances for ease of reading and to facilitate searches of the database. Where the meaning is not compromised by adhering to the spelling, punctuation or grammar, no change has been made. Corrections or additional notes have been inserted within brackets or footnotes. Blanks appearing in the transcripts reflect blanks in the original. A bracketed question mark indicates that the word or words preceding it represent(s) a guess by me. Only materials pertinent to the military service of the veteran and to contemporary events have been transcribed. Affidavits that provide additional information on these events are included and genealogical information is abstracted, while standard, 'boilerplate' affidavits and attestations related solely to the application, and later nineteenth and twentieth century research requests for information have been omitted. I use speech recognition software to make all my transcriptions. Such software misinterprets my southern accent with unfortunate regularity and my poor proofreading fails to catch all misinterpretations. Also, dates or numbers which the software treats as numerals rather than words are not corrected: for example, the software transcribes "the eighth of June one thousand eighty six" as "the 8th of June 1786." Please call errors or omissions to my attention.]

[Note: The scribe of the following application had a very challenging handwriting. Use the transcript with more the usual caution.]

& for the above named County & State personally appeared Thomas Moody who after being duly sworn deposes & says that in explanation of the Depositions now on file in the Pension office that although he was the owner of a Wagon & team during the last period of his services in the year 1780 which was pressed into the service of the southern Army of the United States as a foraging wagons, after being valued as other articles taken for the service for which he never received any pay yet he did not drive said wagon & team himself, but employed one Jack Cook, a man in whom he had confidence to drive his wagon, & that he himself done duty as a soldier at the time as related in his Declaration under Captain Sylvanius Walker and related, commanded by Colonel Richards or Richason & Lieutenant Colonel John Glenn that he was present at the Battle of Camden in South Carolina the 16<sup>th</sup> of August 1780 & that he was discharged from service by Major Morrison in November 1780 having made & served a Tour of 6 months. He further deposes & says he was not engaged any part of the time as a Teamster or Waggoner but employed one Jack Cook to drive his wagon as before stated after it was pressed into the service.

He now hopes in the extremity of old age with the means of Proof more positive that he has offered is rendered in possible from the lapse of time that he may not be excluded from the benefits which his country has provided for those who served her in time of her greatest extremity as it is now impossible to furnish record Proof of his commission as a Recruiting Officer. He submits to the Department to consider that Term of service simply as a private & allow him a Pension of accordingly in connection with the other two terms of service which are proved by evidence as conclusively as can be expected reasonably at this remote Period of time.
