State of Tennessee }
Fayette County } Court of Pleas and quarter Sessions October Term 1833
On this the 18th day of October AD 1833 personally appeared before the Court of Pleas and quarter
Sessions for the County aforesaid John Brooks a resident of Fayette County State aforesaid aged eighty
one years who being first duly sworn according to law doth on his oath make the following aditional
declaration in order to obtain the benefits of the provisions made by the act of congress passed June 7th
1833

That he entered into the service of the united State as stated in his declaration and served as therein stated that he was informed it was not necessary to give a full detail of all his service but that it was only necessary to state sufficient to show that he had been a soldier in the revolutionary war and fought in defence of this country indeed at this remote period he is but illy prepared to give a very minute detail of his services in consequence of his very great age and very imperfect memory. Applicant state that owing to the impurfect state of his memory he cannot attempt to state with any degree of precission the precise length of time that he served but is convinced he served seven months in all. he perhaps needs the aide of his government as much as any other individual but that he would not hazard his character for veracity by making positive and direct statement in relation to the time of his services for all the money in the treasury. his days are numbered and he feels that the cold hand of death will be laid upon in a short time and that he has children that are munificent in the extream to him and who have hitherto kindly extended to him all the wants of life and he has no doubt will continue to do. there if the statements made in this declaration are not sufficient to autherise his government to extend to him that which he feels is due to him under the law above alluded to he must still continue to draw upon the charity of his children Applicant states that he served as a soldier and if he draws any thing from his government it should be bounty of a soldier Applicant was informed that it was not necessary to have the certificate of a minister of the gospel and therefore did not procure the certificate of one in the first instance [signed] John Brooks
