[Methodology: Spelling, punctuation and/or grammar have been corrected in some instances for ease of reading and to facilitate searches of the database. Where the meaning is not compromised by adhering to the spelling, punctuation or grammar, no change has been made. Corrections or additional notes have been inserted within brackets or footnotes. Blanks appearing in the transcripts reflect blanks in the original. A bracketed question mark indicates that the word or words preceding it represent(s) a guess by me. The word 'illegible' or 'indecipherable' appearing in brackets indicates that at the time I made the transcription, I was unable to decipher the word or phrase in question. Only materials pertinent to the military service of the veteran and to contemporary events have been transcribed. Affidavits that provide additional information on these events are included and genealogical information is abstracted, while standard, 'boilerplate' affidavits and attestations related solely to the application, and later nineteenth and twentieth century research requests for information have been omitted. I use speech recognition software to make all my transcriptions. Such software misinterprets my southern accent with unfortunate regularity and my poor proofreading skills fail to catch all misinterpretations. Also, dates or numbers which the software treats as numerals rather than words are not corrected: for example, the software transcribes "the eighth of June one thousand eighty six" as "the 8th of June 1786." Please call material errors or omissions to my attention.]

State of Tennessee County of Jackson SS

On this 11 day of February 1834 personally appeared in open Court before William Scanland, Sampson W. Cassity and John Swezea Esquires Justices of the Court of Pleas and Quarter Sessions for the County of Jackson aforesaid now sitting being a court of record, Yelvaton Neville a resident of the County of Jackson and State of Tennessee aforesaid aged Seventy years last December, who being first duly sworn according to law, doth on his oath make the following amended declaration in order to obtain the benefit of the Act of Congress passed June 7, 1832.

That he entered the service of the United States in that part of the County of Rowan North Carolina State, now Rutherford County in November 1780, the day not recollected as a volunteer for two years under Captain Earl and Lieutenant John Cummings, the Ensign is not recollected to scout the country from the line of South Carolina to Mumford's Cove near the head of Catawba River and guard the frontiers of North Carolina against the Indians and Tories, as stated in his original declaration. The frontiers of North Carolina were then in a very defenseless situation

and there were frequent excursions of Indians in our settlement and massacres of women and children. He was in actual service until January 1782 when he was verbally discharged by said Captain Earl. He was not attached to any Regiment but was in an embodied Corps and served as a private soldier and was not engaged in any civil employment during said term of service – During the above term of service applicant was stationed at White Oak and Mills Station alternately asked necessity required guarding the frontiers as aforesaid, and notified the settlements whenever any signs of Indians appeared which protected the settlements from further Indian depredation and massacre. During his term of service as aforesaid the Cherokees burnt Goins Fort & Mills's Station but applicant and the company in which he served was not present at the time of their being destroyed but was at both the Fort and Station soon afterwards. He was in actual service during said term thirteen months. The militia applicant thinks word sometimes drafted for 9 months and for no longer time. But applicant was not drafted but volunteered for the term of 2 years as above stated and received for such time by Captain Earl on account of the defenseless situation of the frontiers and did serve as above stated 13 months. But if allowing him for so long the time during one term should infringe any rule of the Pension department applicant does not insist on it, but will be willing to receive for the longest term for which the drafted militia were bound to serve, to wit, 9 months and relinquish the balance of said term though he confesses he does it with reluctance knowing he did serve 13 months. He hereby reaffirms his original declaration and states that he served during the several terms therein stated and all 18 months.

I Edward Dycus<sup>2</sup> a citizen and resident of Jackson County and State of Tennessee aged 82 years certify that I resided in Rowan County State of North Carolina in the year 1780 & 1782 and both previous and subsequent those dates. I know that the frontiers of North Carolina were in a very defenseless situation during all of said term, and were guarded during all of said term by both drafted Militia & volunteers. I was not acquainted with applicant during the term of Service he states nor until after the revolution but was well acquainted with him afterwards.

His father was a Captain in the revolution in the service of the United States and I served under him a three months tour. He was a true Whig. After Revolution he was High Sheriff of Rutherford County and his son Yelvaton Neville who has signed and sworn to the foregoing declaration was his deputy. Said applicant Yelvaton Neville was reputed in Rutherford County North Carolina to have been a Soldier of the Revolution and a credible person. I am well acquainted with him in the neighborhood where he now resides; he is a man of good character and is entitled to full credit on his oath and a court of Justice or elsewhere.

Sworn to and subscribed the day and year aforesaid.
